

ANNOUNCEMENT: PROJECT SUBMISSION GUIDELINES

To ensure a standardized evaluation process for your ETL projects, please adhere strictly to the following technical and submission requirements.

1. Mandatory Naming Convention

For identification purposes, both your **Snowflake Database Name** and your **Snowflake Share Name** must follow the format: `MBUST_{{student_roll}}` .

2. Snowflake Data Sharing Instructions

You are required to share your final database with the instructor's account. Use the following **Account Identifier** for the outbound share:

- **Target Account Identifier:** `CHAGXGP.VNB25436`

3. Submission Registry

The Class Representative (CR) is requested to prepare a consolidated Google Sheet or Excel file for project tracking. All students must provide their information in the following format:

S.N.	Student Name	Roll Number	GitHub Link	Snowflake Share/DB Name
1	[Full Name]	[Roll No.]	[Repository URL]	MBUST_[Roll No.]

Important Reminders:

Students must keep the Snowflake Share and Database active for at least 7 days after the deadline to allow for grading. Any share or code that is inaccessible during the grading period will be marked as "Not Submitted."
